UNINTERRUPTED Playtime

Equipped with a best-in-class 1 ms response time and 165 Hz refresh rate, our monitor maximizes your racing experience with instantaneous responses. The curved screen design draws you into the race track, allowing you to enjoy every moment to the fullest. Take every corner perfectly with Warp WRP27.

STRENGTHEN YOUR STRENGTH

RGB

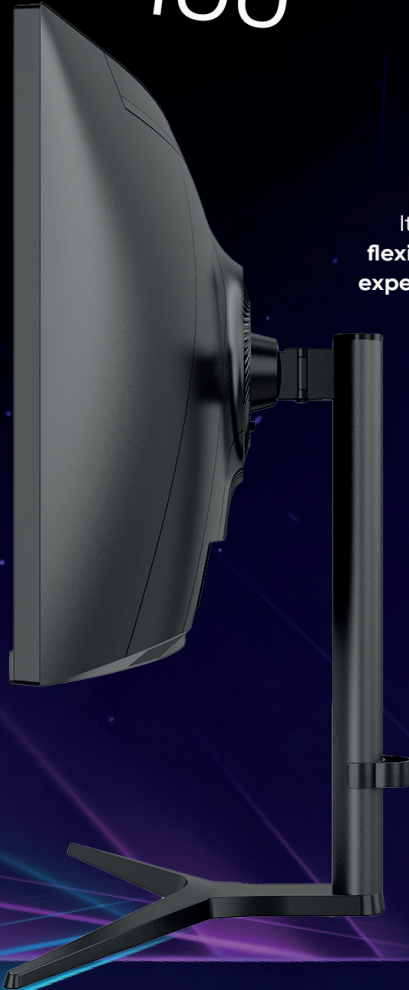

WRP34 Curved Gaming Monitor is equipped with **RGB lighting** that further enriches your gaming experience. The dynamic lighting immerses you in the game, taking your gaming experience one step further while aesthetically illuminating your gaming room. There is also a stereo.

180°

ERGONOMIC DESIGN

It allows you to adjust the height and angle of the screen with ease. This gives you **flexibility** to meet your ergonomic needs while providing a **more comfortable viewing experience**. Easily adjusting the screen to your desired position improves your comfort during long gaming sessions and protects your health.

The **vertical pivot** feature allows you to rotate the screen vertically and horizontally for versatile use.
